

# Template – Test Smells Refactoring Experiment

Nome: Denilson Rabelo Dos Santos

Projeto: commons-io

I'm currently working on refactoring the following test smell:

Assertion Roulette (51-51),(54-54)

Eager Test (121, 122), (128, 129)

Duplicate Assertion (443, 465)

My main difficulties in removing these anomalies were:

Identify and how to refactor the test

I'm using the following refactoring methods to remove test smells:

Duplicate Assertion - Add Message

Eager Test - Extract Method

Duplicate Assertion - Extract Method

From (0 to 10), how harmful is this test smell to the system? It's because ?

5 because it does not interfere with execution, but impairs code maintenance and makes it difficult for other programmers to understand
